

Re-identification of four mayfly species from Hungary (Ephemeroptera)

TIBOR KOVÁCS

ABSTRACT: Three misidentified and one unidentified mayfly species from Hungary are revised. *Baetis melanonyx* is new to Hungary.

The author revised the identification of four species of Ephemeroptera mentioned earlier to occur in Hungary (*Baetis* sp., *Baetis alpinus*, *Baetis tracheatus*?, *Cloeon simile*). As a result, three species were identified: *Baetis melanonyx*, *B. pentaplebodes* and *Centroptilum pennulatum*. *Baetis melanonyx* is new to the fauna of Hungary.

Baetis melanonyx (Pictet, 1843)

Mátraszentimre: Hutahely, Hutahelyi-patak, 2003.06.04., 1, KT (KOVÁCS 2005: under the name *Baetis alpinus* (Pictet, 1843)).

Mátraszentimre: volt Csörgőmalom, Csörgő-patak, 2003.06.04., 1, KT (KOVÁCS 2005: under the name *Baetis alpinus* (Pictet, 1843)).

Mátraalmás: Péter hegyese ÉNy 400 m, Szuhai-patak, 2006.07.07., 1, KT (KOVÁCS 2006: under the name *Baetis alpinus* (Pictet, 1843)).

Baetis pentaplebodes Ujhelyi, 1966

27/1=Répece, Kapuvár, 2004.04.20., 495319, 251425 (CSER & KOVÁCS 2006: under the name *Baetis tracheatus* Keffermüller et Machel, 1967?). Number of revised specimens: 2.

33/1=Rákos-patak, Fertőrákos, 2004.04.20., 471243, 266184 (CSER & KOVÁCS 2006: under the name *Baetis tracheatus* Keffermüller et Machel, 1967?). Number of revised specimens: 2.

35=Galla-patak, Tatabánya, 2004.04.22., 600184, 249728 (CSER & KOVÁCS 2006: under the name *Baetis tracheatus* Keffermüller et Machel, 1967?). Number of revised specimen: 1.

Zagyva (Zagyvarékas): 2004.06.28., 31, BP-CsE-MA-TP (MÓRA *et al.* 2005: under the name *Baetis* sp.).

Centroptilum pennulatum Eaton, 1870

Börzsöny: Bernecei-patak, 1 (CSER & ERŐS 2005: under the name *Cloeon simile* Eaton, 1870).

Börzsöny: Bernecei-patak (ERŐS *et al.* 2005: under the name *Cloeon simile* Eaton, 1870).

Number of revised specimen: 1.

The above-mentioned two papers presents the data of the same specimen, without reference.

Acknowledgements: We are grateful to Balázs CSER (University of Pécs, Pécs) and Kristóf MÁLNÁS (University of Debrecen, Debrecen) for making their collection specimens available for study. Thanks are due to Ottó MERKL (Hungarian Natural History Museum, Budapest) for linguistic help.
