

*ORTHOPTERA AND NEUROPTERA IN LINCOLNSHIRE AND  
NOTTINGHAMSHIRE.*

BY ELAND SHAW, M.R.C.S., F.E.S., &c.

But scant attention seems to have been given to the Orthopterous and Neuropterous fauna of these counties, and residing during the last two years in North Notts., an opportunity has been given me of collecting the already existing information on the subject; and this, with the addition of a few observations of my own, has resulted in the compilation of the following lists. For this opportunity I have to thank the Rev. Alfred Thornley, of South Leverton, who not only placed in my hands the records of the Lincolnshire Naturalists' Union, and his own records for Nottinghamshire, but generously presented me with his collection of local *Neuroptera*.

As regards the *Orthoptera* the determination of the species from Lincolnshire has been made either by Mr. G. T. Porritt or by myself; whilst I am responsible for the Notts. examples, with the exception of *Stylopyga decorata*, Br., which Mr. Malcolm Burr named for me. The great majority of the *Neuroptera* from both counties have been named by Mr. Porritt, some few by Mr. R. McLachlan, and the *Ephemeridae* by the Rev. A. E. Eaton.

The only previous publication I know of bearing on the subject of this paper (except a few occasional notes) is a list of the " *Orthoptera, Neuroptera, and Trichoptera* of the Alford District of North Lincolnshire," published in "The Naturalist" for May, 1896, pp. 129—132, from the records of Mr. James Eardley Mason, and all the localities mentioned therein are included in the present lists.

No list of the Nottinghamshire species has, as far as I am aware, been published.

The number of species here recorded is:—Lincolnshire: *Orthoptera*, 17; *Neuroptera*, 71. Nottinghamshire: *Orthoptera*, 14; *Neuroptera*, 77.

The name of the captor is given in brackets after that of the locality; and to save space the following initials are used:—

(F. A.) F. Altoft, (J. W. C.) J. W. Carr, (R. T. C.) R. T. Cassal (R. W. G.) R. W. Goulding, (J. T. H.) J. T. Houghton, (H. W. K.) H. Wallis Kew, (J. E. M.) J. E. Mason, (E. A. W. P.) E. A. W. Peacock, (M. P.) Max. Peacock, (S. P.) Stephen Pegler, (A. S.) Arthur Smith, (E. S.) Eland Shaw, (A. T.) Alfred Thornley.
