

FAUNISTIC RECORDS FROM CZECHOSLOVAKIA

Ephemeroptera

Heptageniidae

*Ecdyonurus carpathicus* SOWA, 1973: Slovakia or., Cirocha stream, Ruské, 2 larvae, 16. viii. 1977, leg., det. and coll. Soldán. Originally known only from Poland and Roumania; according to SOWA (1975) belonging to the Carpathian endemites. Larva of probably the same species is recorded from locality near Bardejov by ŠÁMALOVÁ (1931). Larvae very rare at a single Czechoslovak locality. New for Czechoslovakia.

*Heptagenia longicauda* (STEPHENS, 1836): Slovakia: Hron riv., Kamenica, 6 larvae, 28. v. 1974; Ipel riv., Šahy, 3 larvae, 15. vi. 1972; Sikenica riv., Zbrojníky, 1 larva, 2. vii. 1972; Latorica riv., Leles, 4 larvae, 16. viii. 1975, all leg., det. and coll. Soldán. Larvae solitary to rare at lowland river localities at altitudes of 100–250 m. Widespread species in Europe. New for Czechoslovakia.

Caenidae

*Caenis beskidensis* SOWA, 1973: Slovakia or.: Cirocha stream, Snina, 12 larvae, 24. viii. 1976; Laborec riv., Čabiny, 24 larvae, 20. viii. 1976; Ondava riv., Svidník, 7 larvae, 6 ♀♀, 17. vii. 1975, all leg., det. and coll. Soldán. Larvae live in streams and small rivers at altitudes 300 to 500 m, probably abundant in East Slovakia. New for Czechoslovakia.

Ephemerellidae

*Ephemerella mesoleuca* (BRAUER, 1857): Moravia mer., Jihlava riv., Iváň, 250 larvae, 4. vi. 1978; Rokytná riv., Vémyslice, 34 larvae, 14. vi. 1979; Oslava riv., Náměšt, 14 larvae, 16. vi. 1979; Bohemia mer., Dračice riv., Klikov, 2 larvae, 10. vi. 1973 (most western known locality), all leg., det. and coll. Soldán. Previously recorded as extremely rare species from East and South Slovakia (LANDA, 1969 : 232) and only once from Moravia (ZELINKA, 1960) where it is very abundant at localities cited. Known only from Poland, Czechoslovakia, Hungary, and Austria. New for Bohemia.

LANDA V., 1969: *Fauna ČSSR*, 18 : 347 pp. SOWA R., 1975: *Acta Hydrobiol.*, Kraków, 17 : 223 to 297. ŠÁMALOVÁ M., 1931: *Čas. Čs. spol. ent.*, 18 : 16–20. ZELINKA M., 1960: *Sbor. klubu přírodověd. v Brně*, 32 : 81–85.
