The following errors occurred in the above paper:

Introduction p. 254 right column line 5: terminalfilum  
READ AS terminal filament.

Introduction p. 255 left column line 21: Furthermore, the 1Ax (Section 4), the ANP and the PNP  
READ AS Furthermore, the 1Ax, the ANP, and the PNP.

Materials and methods p. 256 right column line 12: (Stevens, 183) READ AS (Stevens, 1836).

Materials and methods p. 256 right column line 35: *Pteronarcys reticulata* (Australia; READ AS *Pteronarcys reticulata* (Burmeister, 1839) (Russia;

The figure legend details were published incorrectly, the correct legend details are as follows:

Results p. 260 caption to Figs. 12–17 READ AS Musculature of the right half of the mesothorax of a female imago of *H. confusa* at progressive stages of dissection (head to the left), starting with median muscles (12) and progressively proceeding to the most lateral muscles (17) (scale bar 0.5 mm).

Results p. 263 caption to Figs. 19–21 READ AS Musculature of the right half of the metathorax of a female imago of *H. confusa* at progressive stages of dissection (head to the left), starting with median muscles (19) and progressively proceeding to the most lateral muscles (21) (scale bar 100  $\mu$ m).
